VIGIL File Server (VFS)

3xLOGIC VIGIL™ Series Solutions

VIGIL™ VFS – VIGIL File Server

Easily add centralized hard drive storage for up to four (4) VIGIL NVRs using the VIGIL File Server (VFS) network attached storage (NAS) solution with *managed file services*.

VFS Network Attached Storage works just like an internal hard drive except it is easier to install and one unit can record video from up to four NVRs. Easy plug-and-play installation allows you to add centralized storage in minutes.

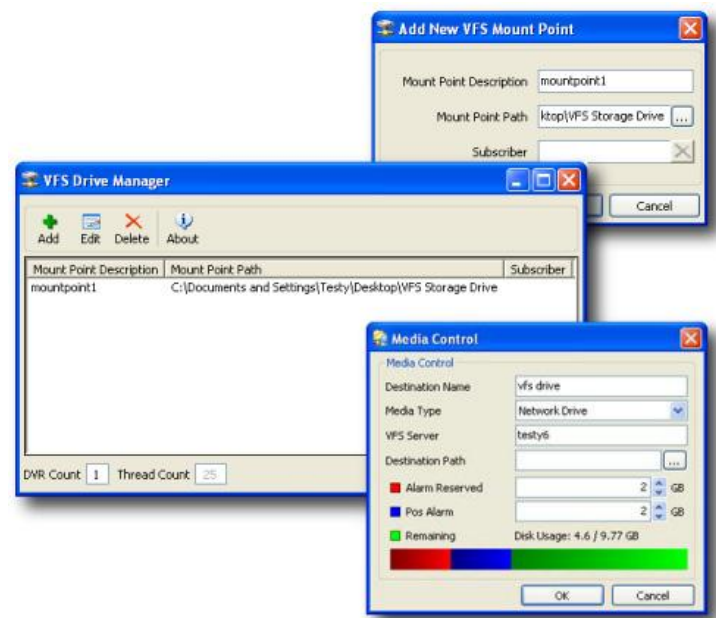

The VFS storage solution works with all VIGIL™ NVRs and provides nearly unlimited enterprise-class storage for all video, audio and data files.

Our unique *Integrity Assurance* means video files will not be lost in the event of a network failure or when the NAS solution is offline. When connectivity is restored, all files are immediately updated. NAS storage is the perfect solution for efficient expansion, maintenance and security of surveillance system data in any application.

Key Features and Benefits

- ◆ Versatile—compatible with all VIGIL™ NVRs
- ◆ Simple—easy to use plug-and-play network based video storage expansion
- ◆ Efficient—record video from up to four VIGIL™ NVRs simultaneously
- ◆ **Integrity Assurance**—continuous monitoring of network and video records to ensure files are received and stored before flushing from NVR

- ◆ Redundancy—can be easily taken offline for maintenance or in the event of network failure without losing video records*
- ◆ Scalable—designed for non-disruptive expansion to nearly unlimited video and audio storage
- ◆ Security—allows centralized secure storage in distributed enterprises and facilities
- ◆ Performance—delivers high, consistent performance for mission-critical applications
- ◆ Flexibility—available in four (4) case styles
- ◆ 100/1000 Mbps (1Gb) network compatibility
- ◆ Reliability—*optional* hardware based RAID 0,1,5,6,10,50 drive configurations

VIDEO OUTPUT	
<i>Main Monitor</i>	VGA (1024x768) Min.
NETWORK	
<i>LAN/WAN</i>	10/100/1000 Ethernet
SYSTEM	
<i>OS</i>	Windows XP
<i>OS Drive</i>	Int. Dedicated 250 GB
<i>Video Storage</i>	500GB to 10000GB
<i>CPU</i>	Pentium Dual Core
<i>Memory (RAM)</i>	2GB
<i>Optional</i>	Hardware RAID controller
CAPABILITY	
<i>File Integrity</i>	File buffer with <i>Integrity Assurance</i>
<i>Connections</i>	Store video from up to 4 VIGIL NVRs
